September 10, 1973

MEMORANDUM FOR: Mr. Colby

SUBJECT: Perspectives Coordination

The following points are relevant to DCI's Perspectives and the question of community coordination. I erred on Friday in saying the Perspectives (in some form) had been coordinated -- it was Goals and Objectives memo to the President which had.

1. DCI's Perspectives is a thin version of Community Planning Guidance.
 2. Goals and Objectives memo was a companion piece to Planning Guidance, i.e., Goals and Objectives was a view on how to go about following Guidance.
 3. Planning Guidance and Perspectives were not coordinated with the USIB agencies; Guidance was coordinated with ONE [] and with Schlesinger and advisers [].
4. The matter of seals on Perspectives was to indicate DCI purview, not community approval.

((Signed) John Martin
